**Subject:** Use of my 350ARV Mini

Hi guys,

I just wanted to let you guys know how pleased I am with your product. I use a 350ARV mini to carry a 160lb propane generator for camping with my Airstream. Since I have a Ford Excursion, and the generator weighs 160 lbs, I could not get that generator in or out of the back of the truck without help...

So, I got the 350AARV mini, a front hitch on the Excursion, and see the attached pics and you get the idea. The only modifications I made were to add the yellow and reflectors for added safety.

Now I can tow the Airstream, and have my generator too...

My next project will be to fabricate a nice aluminum hardcover for the generator that will mount to the 350ARV mini too....

Thanks!!

Kevin Li
